

TELECOM EXPENSE MANAGEMENT ▪ *PROCUREMENT*

BREAKTHROUGH SOFTWARE FOR MANAGING THE COMPLETE TELECOM LIFE CYCLE

CMS is committed to helping its customers improve their bottom lines through progressive management of telecommunications assets and expenses. A key component of this commitment is TEMPOPRO.™ This patent pending software is not only easy to use, but greatly improves information access, enhances operational workflows and includes tools to proactively manage telecom assests.

MORE EFFECTIVELY MANAGE

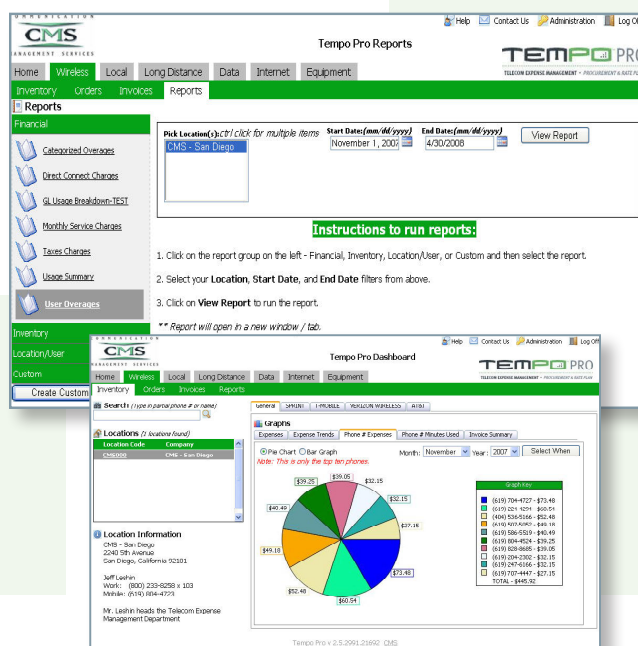

- Ordering, tracking and fulfillment process
- Assets in real time
- Wireless and wireline expenses
- Carrier contracts

SIGNIFICANTLY REDUCE

- Data entry hours
- Need for manual invoice reconciliation
- Demand for help desk resources
- Risk of human error
- Overall communications costs

BETTER CONTROL

- Vendor payment processing
- Employee usage behaviors
- Invoice visibility and auditing
- Day-to-day business operations

KEY FEATURES

ORDERING AND FULFILLMENT

With an intuitive user interface and rules-based display of available services, TEMPO PRO™ offers the most simplified and controlled process for ordering and managing telecom assets. This precise control ensures businesses take full advantage of contract compliance such as procurement cost savings and reduced inventories.

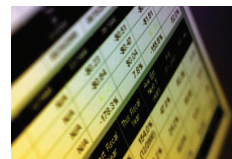

ASSET MANAGEMENT

TEMPO PRO™ provides a centralized, dynamic database of telecom assets throughout an enterprise. Customers can view asset information by employee, location, vendor or asset type. Instant information access enables proactive expense management and informed decision making.

INVOICE AND EXPENSE MANAGEMENT

From charge validation to payment processing, TEMPO PRO™ offers customers a single tool to manage all aspects of the invoicing life cycle. Industry-first functionality includes invoice parsing which provides a description of user-specific costs in seconds. Other powerful tools eliminate cumbersome, time-consuming searches typically found in other TEM systems.

REPORTING

Robust reporting tools generate a broad array of configurable data ranging from company-wide views of assets to vendor-specific services. Extensive drill-down capabilities, advanced filtering tools and automated alerts deliver greater opportunities for costs savings and improved operational efficiencies.

BECOME OUR TEMPOPRO™ PARTNER

In the ultra-competitive world of telecommunications management, our automated TEM solution provides you with the opportunity for differentiation, diversification and growth.

- Differentiate your business from competitors that can only provide sourcing and help desk services
- Expand your service portfolio by engaging customers in total expense management
- Diversify income and create an additional revenue stream
- Increase your overall value to your clients

TEMPOPRO™ PARTNER HIGHLIGHTS

- Private label TEMPO PRO™ to build your company's brand
- Resell your private labeled solution directly to your customers, control your profit margins and grow your business as customers add services
- Replace the constant business "write downs" with true revenue, not just a carrier commission percentage
- Partner with CMS and receive software training, sales assistance and marketing support
