

Just The Facts

Reliability

- World's most experienced network services provider for over 120 years.
- 24x7 Proactive network management, monitoring, and maintenance.
- Our Private Line Services are backed by FASTAR®— the revolutionary Fast Automatic Restoration System, which detects and corrects failures quickly, restoring service in just minutes, by selecting and rerouting circuits from a vast inventory of routes on the network.

Availability

- Over 77,000 route miles of fiber optics, including over 16,500 miles of new “next-generation” fiber and new SONET rings.
- Service available today from hundreds of AT&T POPs nationwide.
- Ultra-capacity express overlay network with state-of-the-art SONET and optical networking technologies ensures extensive coverage now, and in the future.
- All backbone nodes are in physically secured facilities managed by AT&T.

Support

- When you sign up for ACC Business, you're connecting to the power of the AT&T Global Network, along with the dedicated customer service that ACC Business is known for.
- Providing competitive rates and a suite of essential services, including local, long distance, managed Internet and virtual private network service, ACC Business delivers the services your business needs for continued success.
- Dedicated project management and personalized customer care.
- Flexible billing options; including CD billing and customized reports.

ACC Business Private Line Service gives you a dedicated digital transmission path at bandwidths of 1.544 Mbps (DS1) and 45 Mbps (T3)— for fast, reliable LAN-to-WAN interconnections and the power to support complex distributed computing applications.

This service provides quality solutions for mission-critical data networking needs, including data, voice, and video applications. ACC Business Private Line Service offers point-to-point or multi-point facility configurations, providing businesses with multiple service locations the power, capacity, and reliable connections they demand.

We do all of this by delivering our services on the AT&T Global Network, one of the largest, most sophisticated communications networks in the world and backed by the research and development capabilities of AT&T Labs. Combined with dedicated customer service that ACC Business is known for, you get the simply best value for your investment.
