

AireSpring Dedicated Long Distance

PRODUCT OVERVIEW

AireSpring is a recognized leader in low cost dedicated long distance phone service. Whether your company has traditional phone equipment or modern IP enabled systems, AireSpring has a solution for you.

This service is provided through our award winning SIP Trunking network and offers the maximum value for your dollar. AireSpring Network LD, enables you to achieve the power, flexibility, and affordability of SIP with your traditional phone equipment. We'll set you up with a gateway device which sits between your phone equipment and the award winning next generation AireSpring IP network. Leverage the value of your existing phone system and achieve the advantages of IP telephony at the same time.

Why pay more for your T-1? AireSpring also offer the lowest pricing on dedicated long distance quoted across six tier one networks. Whether you need a T-1 of Long Distance or a DS-3, we provide you with a rate comparison across multiple carriers which serve your location. AireSpring is always ready to provide you with world class services at industry leading low rates.

KEY FEATURES/BENEFITS OF AIRESPRING NETWORK LD

AireSpring Network Long Distance was built to handle heavy traffic volume. In fact, we love busy call centers with high calls per second! Others may reject your high CPS traffic, but AireSpring welcomes it.

- **Add inbound only DIDs. Numbers available across the country & in key locations worldwide.**
- **Ability to dial out to toll-free numbers.**
- **AIRECARE™ Advanced Billing Report Management updated every 15 minutes.**
- Gain the advantage of next generation IP telephony without needing to purchase new IP enabled phone equipment.
- No penny minimum, 6/6 billing and 6 second rounding
- Keep your existing PBX - get low Long Distance rates.
- Built to support high calls per second and call center traffic.
- Extremely aggressive access and per minute pricing.
- Vast nationwide coverage. We're everywhere!
