

TelePacific Connect

Sick of paying up to 50¢ a minute for conference calling? Tired of paying a monthly recurring charge for access to a conference bridge regardless of whether you make conference calls or not?

Now conference calls are easier and less expensive than ever with TelePacific Connect. With our free web-scheduled and reservation-less options, conference participants can join in for the price of making normal calls. And our premium web-scheduled 800 service costs just 16¢ a minute. Simply log on to telepacific.com/connect and follow the easy instructions.

1

Reservation-less Conference Calling

Reservation-less Standard is a free service that can be used instantly, securely and anonymously. You do not have to set up a user account or provide us with any information regarding your conference. Everyone who calls the same Dial-in Number and enters the same Participant Access Code will be connected. Go to www.telepacific.com/connect for Dial-In Numbers. Reservation-less service accommodates up to 25 callers for as long as three hours.

- ▶ No account required
- ▶ Instant and anonymous access from any phone
- ▶ Crystal clear all-digital connections
- ▶ Secure and private
- ▶ 24-hour automated access to Reservation-less conference system
- ▶ No computer required

2

Web-Scheduled Standard Conference Calling

Web-Scheduled Standard is a free service that can be used immediately after signing up for a user account. This prescheduled option guarantees reservations for conferences with up to 100 callers. The step-by-step online interface allows you to schedule and manage telephone conference calls from any browser without the assistance of an operator.

- ▶ Schedule & manage conferences via the web
- ▶ Advanced security features
- ▶ Real-time conference management controls
- ▶ Automated conference e-mail invitations
- ▶ Receive RSVPs with reply comments
- ▶ Outlook and Lotus calendaring
- ▶ Crystal clear all-digital connections
- ▶ 24-hour automated access to Web-Scheduled conference system

Connect Calling

Everyone participating in a conference will call the same Dial-in Number. Depending on the location of each participant, this call may be local or long distance. Although we do not charge for conference services 1 or 2, long distance rates or tolls will be charged by the phone company that each caller uses. We do not require the use of any specific phone company.

Conference calling is now easier and less expensive than ever before.

3

Premium Web-Scheduled 800 Conference Service

This 800 conference service is a simple and cost effective way to connect with your clients and prospects. The organizer simply reserves the toll-free conference bridge and the service will be billed based on actual usage. The organizer only pays for the actual time and number of telephone lines used, regardless of what was reserved when the conference was scheduled.

With the Premium Web-Scheduled 800 Service, you can also opt for all-digital, on demand Conference Recording which is hassle- and worry-free. There are no operators or complicated forms to deal with; no waiting for cassettes or CD-ROMs to arrive in the mail. Just a checkbox to select while scheduling your conference.

- ▶ No account setup fee
- ▶ No per-call setup fee
- ▶ No fixed monthly recurring fee
- ▶ No account maintenance fee
- ▶ No "no show" fee
- ▶ No conference cancellation fee
- ▶ No minimum monthly or per-call usage fees
- ▶ Digital conference recording with immediate audio file delivery
- ▶ Optional transcription services

Security Options

Security options are available to the call moderator, including locking the call, playing a chime when callers enter or exit the call, reporting the number of persons on the call, muting, and more.
