

# Flex Trunk/PRI

You act like a "big" guy. You bought the same PBX equipment. Your communications network is a well-oiled machine. Now, take advantage of your equipment with services made for the company that is just your size.

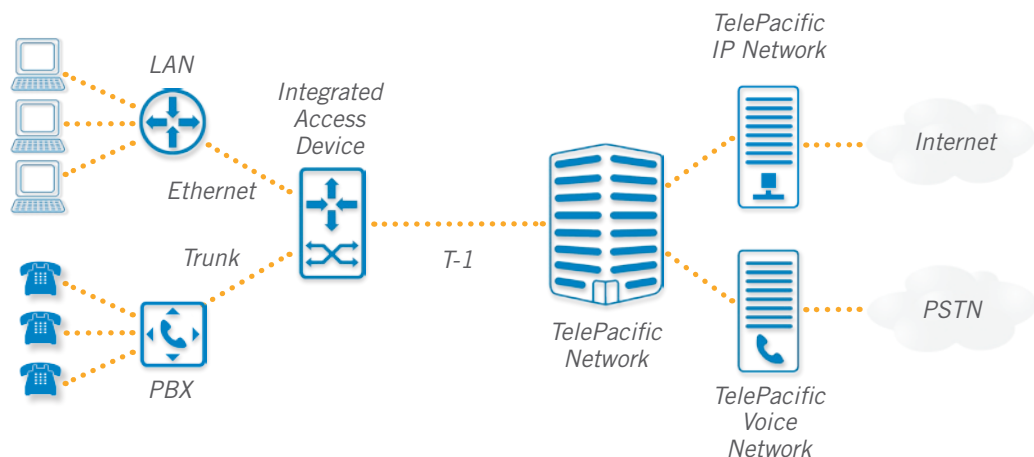

Get it all—local, long distance, Internet access or Private IP/VPN services—in one digital connection. Giving you the services you need, in the size and price that is right for you.

## What is a Flex Trunk or Flex PRI Bundle?

A Flex Trunk or PRI Bundle delivers both voice and data over a high capacity T-1, customizing the voice/data allocation to meet the needs of your business.

- ▶ High capacity, end-to-end digital voice connections in the flavor—fractional SuperTrunk or PRI—that meets the needs of your business.
- ▶ Data services over our fully-meshed IP network with Service Level Agreements offering up to 99.999% uptime. Available as a Private IP VPN solution for multiple locations or remote access users.
- ▶ Aggressive calling plans suitable for your traffic patterns.
- ▶ Six voice and data features to enhance your internal and external communications and efficiency of your business.

### Flex Trunk/PRI Bundle Architecture

Get it all, local,  
long distance,  
Internet access  
or VPN services  
in one package.

### As always with TelePacific, you get:

- ▶ 24-Hour Technical Support
- ▶ Toll Fraud Monitoring
- ▶ Voice and Data Service Level Agreements

## Choose Your Voice Services

- [ ] Our fractional SuperTrunk offers the power and performance of high-speed digital networking to meet today's business needs. This high capacity, end-to-end digital connection allows for 10 or more simultaneous calls and a total of 24 channels for voice and data access.
- [ ] Our fractional Voice Only PRI offers you a T1 circuit that allows for 10 or more simultaneous calls with a total of 23 channels for voice and data services. The 24th channel allows for faster connects and disconnects on calls, which saves time and money.

## Choose Your Usage Plans

- [ ] Minute Bundles offer a great per-minute rate while providing a level of predictability to your monthly invoice. Choose blocks of minutes for one flat rate.
- [ ] Choose from five long-distance commitment-based usage options offering long distance rates as low as 1.9¢ per minute.

## Choose Your Data Services

- [ ] Your Internet connection is only a click away with TelePacific's Dedicated Internet Access (DIA). You can trust that your connection will be there when you need it.
- [ ] Dedicated VPN provides your company with a private and secure network constructed within TelePacific's private IP infrastructure. It's a reliable, cost-effective alternative to traditional Private Line and Frame Relay networks. Simply use our network to connect multiple locations or connect with remote access users.

### Included in Your Package

TelePacific Connect	Scheduling and managing conference calls is now easier than ever. Ask us how to use our free Conference Call bridge. Participants can join in for the price of making normal calls.
Direct Inward Dial Numbers	The Flex Bundles provide up to 20 Direct Inward Dial (DID) numbers. Give each employee their own number so that customers, prospects and employees can dial each other directly. Eliminate the need for all inbound calls to go through a receptionist. Need more? They are available a la carte.
Caller ID and Caller ID Name	Caller ID and Called ID Name provides visibility to inbound caller information necessary for call screening and screen pop-up applications. Available with the Flex PRI Bundle.
IP Addresses	The Flex Bundles provide 8 IP addresses. Of course, TelePacific offers up to 256 IP addresses based on utilization at no additional charge.
Email Hosting	The Flex Bundles provide email hosting from 32 to 64 email boxes depending on your bandwidth allocation. Need more? They are available a la carte.
Domain Name	The Flex Bundles provide domain name transfer, hosting and registration for one domain name at no additional charge.
