

# BizPac

BizPac is a Voice and DSL package uniquely suited for growing businesses like yours. BizPac provides a made-to-order solution with the same reliable phone service and DSL as our larger bundled services.

With BizPac, your business will receive just the right number of voice lines and high-speed DSL all in one convenient bundle.

BizPac offers a variety of features to address the individual needs of most growing businesses. Our business customers can select from a range of Internet options, voice lines, and email addresses to fit their professional needs. In addition, BizPac with Worry-Free™ LD is designed to meet the calling patterns of most small businesses with virtually unlimited long distance calling. From high-speed DSL and wide area calling to competitive local and long distance features, BizPac presents a smart choice for our growing business customers.
