Rates subject to change. Monthly minutes include outbound &
inbound interstate, intrastate and intralata calling. Limits and
overage charges apply.

Long distance rates
usually mean
confusion for you.

Not at XO®

We believe in simplicity...even with our long distance rates. We've designed our new long distance rate plans with your business needs in mind:

- Simple, flat-rate long distance plans available nationwide, at one location or one hundred on one simple monthly invoice.
- Supported by a single team of customer care professionals committed to making your life easier.

All XO® Long Distance plans feature:

- Outbound and inbound calling — interstate, intrastate and intralata, even for calls to Alaska, Hawaii, Puerto Rico, American Samoa, Guam and other U.S. territories*
- Calling plans based on service locations, not per line, so you can select a plan that's right for your business needs because minutes are allocated across your entire location.
- Aggressive rates that are the same in each of our markets across the country.
- Access to low-cost, value-added products such as the XO Calling Card, Conferencing and International calling plans.

XO Long Distance Business Plans

- **XO® Business Plans:**

For small and medium business customers, these flat-rate “bucket” plans range from a minimum of 200 minutes per month up to 40,000.

- **XO® Business Plan (per-minute):**

For customers who prefer a flat-rate plan with no term or volume commitments.

- **XO® Unlimited Business Plan:**

For smaller customers with a maximum of 10 lines, this plan serves business needs without having to monitor monthly usage.

Managing your telecom budget *can* be simple with our predictable monthly charges for both outbound and toll-free calling plus a single point of contact.

* Inbound usage not included in Unlimited Business Plan. For other LD Business Plans, inbound calling includes domestic toll free only.

Everything you want.
Exactly what you need.™
