XO® Managed Firewall Services

Fully managed services to protect
your network from the Internet.

XO SECURITY SERVICES

XO Managed Firewall allows you to offload the security concerns of connecting to the Internet by providing a fully managed security solution, based on the industry leading Cisco platform. A multitude of connection speeds can be supported, from DSL to OC-3 and higher speeds, as well as providing you the choice between the purpose built Cisco PIX firewall appliance or the more versatile Cisco IOS solution.

The Internet is a dangerous place for businesses. Dangers lurk everywhere, from malicious hackers to harmful worms and viruses. If you are connected to the Internet, then you may be faced with these dangers … but you don't have to face them alone.

Know the Risks:
- In 2003, the CERT Coordination Center (CERT/CC) reported that 70% of companies surveyed had at least one e-crime or intrusion committed against them
- On average, 136 e-crimes / intrusions are annually committed against an organization
- 71% of those attacked originated outside of the companies surveyed

The Solution
There is a solution to help you to secure your Internet access: **XO® Managed Firewall**. Ensure that the dangers of the Internet are kept out of your network and that your policies regarding Internet access are enforced.

XO Managed Firewall is based on the industry-leading Cisco® platform, either using a purpose-built PIX firewall appliance or the versatile Cisco IOS router. Both platforms use industry standard Stateful Inspection, so you can rest assured that your network is being protected by state of the art technology.

Managed Firewall Features/Benefits
- Free site surveys to ensure that XO provides you with a solution that fits your exact needs
- Industry-standard stateful inspection firewall technology ensures a secure perimeter to your network
- Equipment installation and 24x7 monitoring with maintenance plans available
- Security experts to help design an effective firewall policy and assist with policy changes
- Unlimited firewall policy changes
- Operational site certification to verify correct operation of the Managed Firewall service

Scalable, Multi-Megabit Access Bandwidth
XO Managed Firewall can support a multitude of different access methods, ranging from DSL to T-1 up to OC-3. This allows you to receive a managed security solution today that is flexible enough to grow with you as your business needs grow.

Cisco® Powered Network
The Cisco Powered Network Logo indicates that the XO Managed Firewall Service is delivered to you over an infrastructure built with industry leading Cisco products.
